Omnichannel Messaging for All Departments

ActivEngage Managed Messaging connects customers on your website (desktop and mobile), Facebook, Google, Craigslist, and Offerup to our highly-trained professionals, 24/7. We take on any type of conversation with confidence: including sales, service, parts, finance, and customer service.

High-Quality Hires Equals High-Quality Results

We'll never stop believing that great people are what make a business grow and succeed. That's why our omnichannel managed messaging services only utilize real, highly-trained people who bring their personal touch and human experience to each and every conversation.

Features that Boost Quality

ActivEngage Customer Engagement Experts (CEEs) use specialized tools to present every customer with the information they need, along with your dealership's specific offers and messaging. We are a true extension of your dealership!

Our Team Achieves Unmatched Results in the Automotive Industry

Because of our continuous training and productive management structure, ActivEngage CEEs are able to gather specific data regarding customer preferences as well as motivate customers to visit your dealership better than any other communication agents in the industry.

On average, our CEEs convert 80% of the conversations they have into qualified leads, which include first and last name, email address and/or phone number. In addition, 20% of our qualified leads result in a physical appointment to your showroom.

Extensive Auto-Industry Partnerships and Integrations

With our industry-leading managed messaging and engagement solutions, digital retailing and service scheduling integrations, and our highly flexible software, ActivEngage brings incredible value to our dealer partners. All of these factors set the stage for the highest possible quality sales conversions and a seamless customer experience across all departments!
